Join us for the best Wildlife Curriculum Training in the country!

Project WILD is concerned with providing information, as well as helping students to evaluate choices and to make responsible decisions. In short, Project WILD's mission is to help students learn how to think, not what to think about wildlife and the environment.

Project WILD curriculum materials adhere to those strict efforts for balance and objectivity, backed by sound educational practices and theory. It also represents the work of many within the fields of education and natural resource management from across the country.

The Project WILD K-12 Curriculum and Activity Guide, and the Project WILD Aquatic K-12 Curriculum and Activity Guide are updated regularly. We rely on input from educators, coordinators, and facilitators.

Deadline for Application: Monday, February 20, 2012
